 Ethernet Network Port  
 25ft. Network Cable

### SYSTEM CONFIGURATION:

## POWERFUL DISPLAY CAPABILITIES

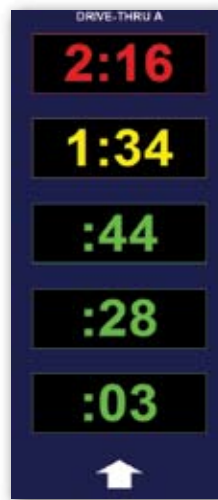

User friendly templates make configuration changes quick and easy. Focus on what matters for your drive-thru by selecting the Information YOU want to DISPLAY!

Want to make a change that better suits your needs? No problem! Select a template, then choose the events and information that motivates your crew to meet and exceed their goals. It's as simple as a few clicks of the mouse.

## DYNAMIC ON-SCREEN DRIVE-THRU

The On Screen Drive-Thru provides immediate feedback to crewmembers and management on how many cars are in the drive-thru and how long they have been waiting.

Multi-Color Targeting indicates if Total time goals are being achieved based on timer parameters set by you.

The On-Screen Drive-Thru is an optional feature easily enabled or disabled by you.
